**Materials**

**1** 4" Round Base - Circumference 12"

**3/8 f Natural** Spokes **10** @ **6"** & Rims

**3/8 f Dyed** Spokes **10** @ **6"**

**#2 Round** Twine the Base **2** @ **50"**

**#1 Seagrass** Weaver **1** @ **260"** & Rim Filler

**#3 Dyed** Weaver **1** @ **260"**

**1/4 f** Rim Row

**11/64 fo Natural** Lasher **1** @ **50"**

**Please read all instructions before starting.**

**Trace** the base on a piece of paper and cut it out. Fold the paper into quarters and pencil mark the quarter fold marks. Transfer the quarter marks, using a pencil, onto the bottom of the base. Evenly insert the spokes smooth side up alternating natural and dyed. Insert **1** at each quarter mark and **4** in between.

**Twine 3** rows using #2 round, leaving the spokes flat.

**Weave the sides.** Push the spokes upward creating a gradual upset. Weave the sides allowing a slight flare.

**#1 Seagrass & #3 dyed** **13** rows of twining. Twine using 1 long piece of seagrass and a long piece of #3 dyed. Start the 2 pieces behind 2 consecutive spokes with the #3 behind a natural spoke and the seagrass behind a dyed spoke.

**1/4 f** **1** rim row. Start the rim row on a natural spoke.

**Cut** off all of the natural spokes even with the top edge of the rim row.

**Tuck** all of the dyed spokes into **6** rows of seagrass weaving.

**Rim** using 3/8 f inside and out, fill with seagrass and lash using 11/64 fo.
